

Sinclair  
Broadcasting makes  
money on MY  
airwaves. Just  
because they make  
money this way and  
use it to buy up  
more stations that  
ride free on my  
spectrum does not  
give them a free  
ride to use those  
stations to push  
their own political  
agenda.

Despite flawed  
rulings to the  
contrary from the  
FCC, Americans want  
their airwaves to  
serve a broad public  
interest rather than  
just the interests  
of those wealthy and  
ruthless enough to  
monopolize them.

I call on the FCC to  
speak out against  
this practice, to  
request that  
Sinclair abort this  
pending broadcast,  
and to return the  
fairness doctrine  
to the public  
broadcast airwaves.
